The Board of Governors
International Monetary Fund

We have the honor to submit herewith through the Managing Director and Executive Directors the report on the audit of the International Monetary Fund (General Account and Special Drawing Account) and the separately administered Staff Retirement Fund for the fiscal year ended April 30, 1970.

The Audit Committee is pleased to acknowledge that it was given full access to the accounting records of the Fund, and that all the information required in connection with the audit was readily available and competently given by the Director of Administration, the General Counsel, the Treasurer, the Internal Auditor, and all other officers of the Fund with whom the Audit Committee had dealings. The audit was greatly facilitated thereby, and the Audit Committee wishes to express its sincere appreciation.

AUDIT COMMITTEE:

THE AUDIT

Authority for audit

The audit was carried out pursuant to Section 20(b) of the By-Laws of the International Monetary Fund. In accordance with the provisions of the By-Laws, France, Malaysia and Sierra Leone were each invited to nominate a member to serve on an external audit committee to conduct the necessary audit. The appointments of the three members nominated were confirmed by the Executive Board.

Scope of the audit

The audit was conducted in accordance with the requirements of Section 20(b) of the By-Laws that the audit be comprehensive with respect to the examination of the financial records of the Fund; that it extend, insofar as practicable, to the ascertainment that operations and transactions conducted through the General Account or the Special Drawing Account during the period under review were supported by the necessary authority; and that it determine that there was adequate and faithful accounting for the assets and liabilities of the Fund and for special drawing rights. In considering the authority for operations and transactions, reference was made to the Articles of Agreement, the By-Laws, the Rules and Regulations, the Resolutions of the Board of Governors, the minutes of the Executive Board and the General Administrative Orders of the Fund. The Committee applied such tests to the accounting and other financial records as it considered necessary to establish the adequacy of the system of accounting and internal control. In determining the Committee's program of test examination, consideration was given to the work carried out by the Internal Auditor, as reported by him, and to the standard of his work as observed by the Committee.

Audit certificate

We have examined the Balance Sheet of the General Account of the International Monetary Fund as at April 30, 1970, the Statement of Income and Expenditure and the Statement of Reserves for the year then ended, and the schedules related thereto; and the Balance Sheet of the Special Drawing Account of the International Monetary Fund as at April 30, 1970, and its related schedules. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, these Balance Sheets and Statements, together with the notes appearing thereon, present fairly the financial position of the International Monetary Fund as at April 30, 1970, and the results of the operations and transactions in the General Account for the year then ended, and in the Special Drawing Account for the period from January 1, the date on which the first allocation of special drawing rights was made, through April 30, 1970, in conformity with generally accepted accounting principles, and, with respect to the General Account, applied on a basis consistent with that of the preceding year.

AUDIT COMMITTEE:

/s/ André Valls, Chairman (France)

/s/ Shamsir bin Omar (Malaysia)

/s/ A.S.C. Johnson (Sierra Leone)

INTRODUCTORY COMMENTS

During the year the amendments to the Articles of Agreement, which established the Special Drawing Account and made other changes, became effective. Article XXII, Section 1, states that all operations and transactions involving special drawing rights shall be conducted through the Special Drawing Account, and that all other operations and transactions of the Fund shall be conducted through the General Account. The Audit Committee, therefore, has divided the report into two parts. Part One deals with the General Account, and Part Two deals with the Special Drawing Account.

The financial statements and supporting schedules that have been audited are given as appendices to the respective comments on the General Account (Part One) and the Special Drawing Account (Part Two).

PART ONE: GENERAL ACCOUNT

In accordance with Section 20(b) of the By-Laws, all accounts of the General Account are summarized in U.S. dollar equivalents.

I. GENERAL COMMENTS

As a result of the activation of the Special Drawing Account during the year, a new asset—special drawing rights—is shown for the first time in the General Account.

Gold holdings at April 30, 1970, were higher than those at the close of the previous fiscal year because of purchases of gold from members, largely from South Africa, while currency holdings were below those of the previous year mainly because of the use of special drawing rights in repurchases by members.

The total amounts of purchases and repurchases of currencies were slightly above those of the preceding year. The outstanding drawings at the close of the fiscal year were larger than those of last year.

The increase of outstanding drawings and the purchases of gold by the Fund had the net effect of increasing members' gold tranches. The increases in the gold tranches were primarily the net result of changes during the year which affected the positions of a few members. The gold tranche of one member was reduced by a drawing to the extent of its super gold tranche, one member moved to a debtor position, while the gold tranches of four members were increased.

The rise in the Fund's holdings of members' currencies in excess of quotas, which to some extent reflects the increase of other members' gold tranches, is mainly due to drawings by two members.

Although the total amount of the stand-by arrangements entered into during the year was the largest of any fiscal year, the amount available at the year end was approximately the same as at the close of the previous year.

The capital of the Fund did not change substantially during the year. On February 9, 1970, the Board of Governors adopted Resolution No. 25-3 proposing an increase of \$7.6 billion. Pursuant to the resolution the increases in quotas are not to take effect prior to October 30, 1970.

II. ANALYSIS OF SELECTED OPERATIONS AND TRANSACTIONS

Purchases of currencies by members

During the year, 33 members made purchases in 17 currencies amounting to \$2,995,653,097. Of this amount, \$575,691,757 fell within the members' super gold tranches (the super gold tranche is defined as the amount by which the Fund's holdings of a member's currency are below 75 per cent of its quota) and is not required to be repurchased.

There were 58 individual purchases, summarized as follows:

Number of Purchases	Amount	
43	<u>\$2,260,888,177</u>	<ul style="list-style-type: none"> – Under stand-by arrangements (excludes one drawing amounting to \$2,750,000 which was reclassified as a drawing under the decision on compensatory financing)
2	9,000,000	<ul style="list-style-type: none"> – Under compensatory financing of export fluctuations
<u>13</u>	<u>725,764,920</u>	<ul style="list-style-type: none"> – Other transactions
<u><u>58</u></u>	<u><u>\$2,995,653,097</u></u>	

Details of the currencies purchased by members are set forth in Table 1 (see page 6).

Repurchases by members of own currencies

During the year, 168 individual repurchases amounting to \$1,670,690,561 were made by 46 members in gold, in special drawing rights, and in 13 currencies. These repurchases are analyzed as follows:

Repurchases under Article V, Section 7(b)	\$ 186,080,190
[The obligations of repurchase under Article V, Section 7(b), undischarged at April 30, 1969 (\$15,504,747), and those incurred at April 30, 1969 (\$170,575,433), have been discharged.]	
Repurchases of drawings under decision on compensatory financing of export fluctuations	79,375,000
Repurchases of drawings in connection with quota increases	17,620,833
Repurchases of drawings under stand-by arrangements, schedules, and other provisions approved by the Fund	1,387,614,538
Total	<u><u>\$1,670,690,561</u></u>

The total amount was applied mainly to reduce outstanding drawings by \$1,664,584,119 and to repurchase currencies paid as subscriptions in excess of 75 per cent of members' quotas by \$6,101,436.

The amounts of gold, special drawing rights, and currencies paid by members in repurchasing their currencies are shown in Table 2 (see page 7).

INTRODUCTORY COMMENTS

During the year the amendments to the Articles of Agreement, which established the Special Drawing Account and made other changes, became effective. Article XXII, Section 1, states that all operations and transactions involving special drawing rights shall be conducted through the Special Drawing Account, and that all other operations and transactions of the Fund shall be conducted through the General Account. The Audit Committee, therefore, has divided the report into two parts. Part One deals with the General Account, and Part Two deals with the Special Drawing Account.

The financial statements and supporting schedules that have been audited are given as appendices to the respective comments on the General Account (Part One) and the Special Drawing Account (Part Two).

PART ONE: GENERAL ACCOUNT

In accordance with Section 20(b) of the By-Laws, all accounts of the General Account are summarized in U.S. dollar equivalents.

I. GENERAL COMMENTS

As a result of the activation of the Special Drawing Account during the year, a new asset—special drawing rights—is shown for the first time in the General Account.

Gold holdings at April 30, 1970, were higher than those at the close of the previous fiscal year because of purchases of gold from members, largely from South Africa, while currency holdings were below those of the previous year mainly because of the use of special drawing rights in repurchases by members.

The total amounts of purchases and repurchases of currencies were slightly above those of the preceding year. The outstanding drawings at the close of the fiscal year were larger than those of last year.

The increase of outstanding drawings and the purchases of gold by the Fund had the net effect of increasing members' gold tranches. The increases in the gold tranches were primarily the net result of changes during the year which affected the positions of a few members. The gold tranche of one member was reduced by a drawing to the extent of its super gold tranche, one member moved to a debtor position, while the gold tranches of four members were increased.

The rise in the Fund's holdings of members' currencies in excess of quotas, which to some extent reflects the increase of other members' gold tranches, is mainly due to drawings by two members.

Although the total amount of the stand-by arrangements entered into during the year was the largest of any fiscal year, the amount available at the year end was approximately the same as at the close of the previous year.

The capital of the Fund did not change substantially during the year. On February 9, 1970, the Board of Governors adopted Resolution No. 25-3 proposing an increase of \$7.6 billion. Pursuant to the resolution the increases in quotas are not to take effect prior to October 30, 1970.

No significant change occurred during the year in the indebtedness of the Fund.

The general upward trend of total income, administrative expenditure, and the General Reserve continued. There was a sharp rise in operational expenditure because of the provision for the payment of remuneration in accordance with Article V, Section 9, of the Articles of Agreement, as amended effective July 28, 1969.

Income from investments under the gold investment program rose because of higher rates of interest on the investments; and correspondingly there was an increase in the amount credited to the Special Reserve.

Selected financial data on the General Account in connection with the above comments, expressed in millions of U.S. dollars, are as follows:

Drawings outstanding

The changes in drawings outstanding during the year are summarized in Table 3. The table shows an amount of \$5,369,479,000 of outstanding drawings involving 49 members at April 30, 1970, which is an increase of \$691,002,000 over the amount of \$4,678,477,000 recorded at the end of the previous year. This increase is analyzed below:

--	---------------

Use of currencies of members with outstanding drawings by the Fund for making payments	2,575,000
--	-----------

Repurchases of previous purchases	<u>1,664,584,000</u>	<u>1,728,959,000</u>
Net increase		<u>\$ 691,002,000</u>

Of the \$5,369,479,000 drawings outstanding at April 30, 1970, \$4,018,064,000 is subject to charges on balances in excess of quotas.

The net increase of drawings outstanding for the year is larger than the increase for the previous year (\$118,509,000), though the amounts of purchases and repurchases were approximately the same in the two years. The main reason for this is that the currencies of members with drawings outstanding in the fiscal year 1970 were used by other members to a lesser extent than were the currencies of members with drawings outstanding in the fiscal year 1969.

III. BALANCE SHEET

Gold Account

Gold with depositories

The gold with depositories at April 30, 1970, amounted to 78,993,505.271 fine ounces valued at \$2,764,772,684, an increase of \$193,720,960 over the value of gold held at the close of the preceding year. The net increase is accounted for as follows:

Increases

Subscriptions	\$ 23,758,009
Repurchases of currencies by members	80,844,167
Sales of gold by members to the Fund	289,010,079
Charges on sales of gold by member	696,875
Operational charges	8,398,467
Charges on balances in excess of quotas	58,962,442
Deposit by prospective member	1,500,008
Purchases of members' earmarked gold and other gold	<u>138</u> \$463,170,185

Decreases

Sales of gold to members	\$250,000,292
Payments of interest on indebtedness	17,029,320
Transfer charges under General Arrangements to Borrow	<u>2,419,613</u> <u>269,449,225</u>
Net increase in gold with depositories	<u><u>\$193,720,960</u></u>

Increase in Bars	\$219,220,922
Decrease in General Deposits . . .	<u>25,499,962¹</u>
Net increase in gold with depositories	<u><u>\$193,720,960</u></u>

¹ This amount of gold was transferred from General Deposits to the Fund's holdings of gold bars on the occasion of sales of gold.

The increase in gold with depositories, as compared to the decrease of \$445,124,344 in the previous year, was due mainly to the large purchases of gold from South Africa which were made in accordance with Executive Board Decisions Nos. 2914-(69/127) and 2915-(69/127) taken on December 30, 1969. Decision No. 2914-(69/127) stipulates that the Fund will purchase gold from South Africa when South Africa states that the offer is made in accordance with the terms of the letter on this subject from South Africa to the Fund. This decision is subject to review after five years, or earlier if there is a request for a review because of a major change in circumstances. The sales of members' gold to the Fund during the year amounted to \$289,010,079, of which \$282,750,079 was made by South Africa.

The depositories confirmed directly to the Audit Committee the gold held by them for the account of the Fund. Included in the quantities confirmed were 42,857.363 fine ounces of gold held in suspense for the account of the Yemen Arab Republic pending completion of the formalities of its membership; and 24,948.188 ounces held under earmark for the account of individual members which are not included in gold with depositories as shown in the Balance Sheet. The amounts of earmarked gold in excess of five ounces were certified by the members concerned.

Investments

United States Government securities with a face value of \$844,250,000 maturing within 12 months were held at April 30, 1970. These securities, which were confirmed directly to the Audit Committee by the depository, are shown under the Gold Account in the Balance Sheet at cost, \$799,944,728, while the accrued earnings of \$20,587,625 at April 30, 1970, are included in the amount shown for Other Assets. Funds awaiting investment as at April 30, 1970, amounted to \$46,783.

The United States has given an undertaking to resell to the Fund on request 22,856,900.312 fine ounces of gold valued at \$799,991,511.

Special drawing rights

On April 30, 1970, the holdings of special drawing rights by the General Account amounted to 212,472,421 units of special drawing rights valued at \$212,472,421. The holdings of special drawing rights by the General Account represent the excess of receipts (SDR 212,723,503) over transfers (SDR 251,082) in operations and transactions with members who are participants in the Special Drawing Account. Further details are given in Part Two of this report.

Currencies and securities

The currency and security holdings at April 30, 1970, amounted to \$18,564,526,597, a decrease of \$237,270,322 from the holdings at the end of the previous year as shown hereunder:

Decrease		<u>\$ 237,270,322</u>

The holdings of currencies and securities were confirmed directly to the Audit Committee by the depositories concerned.

It is noteworthy that these holdings are subject to unchallengeable purchases by members to the extent of their respective gold tranches, which in total amounted to \$5,976 million at April 30, 1970. They are also subject, in accordance with the terms of the stand-by arrangements, to drawings to the extent of \$301 million, the amount available under these arrangements at April 30, 1970.

Included in the holdings at April 30, 1970, is \$5,369,479,606 of outstanding drawings which members are obligated to repurchase.

Subscriptions to capital - receivable

Balances of original quotas - not due

This account shows the total amount of balances of original quotas receivable from 19 members but not due, because at April 30, 1970, the members had not established par values for their currencies. These amounts have been credited to the Members' Authorized Subscriptions account, but none of these members is obligated to pay the balance of its subscription under its respective membership resolution listed below before 30 days after initial par value for its currency has been agreed by the Fund:

Balances of increases in quotas - not due

Of the members who had consented to an increase in their quotas following the Fourth Quinquennial Review and who had made requests to settle the increase in installments, three remained with the final installments not due totaling \$1,800,000 on April 30, 1970: Cameroon (\$800,000), Central African Republic (\$500,000), and Gabon (\$500,000). However, as a result of partial payments during the year of \$600,000 of currency subscription by Cameroon and \$125,000 of gold subscription by the Central African Republic in advance of their next installments, the balances not due on April 30, 1970, were reduced to \$1,075,000.

Other assets

The balance in this account on April 30, 1970, amounted to \$55,423,808, and the details are summarized in Schedule 5. This amount includes \$33,061,707 representing charges payable by members on their currencies held by the Fund in excess of their quotas for the quarter ended April 30, 1970; \$20,587,625 in respect of accrued earnings on gold investments; and \$1,774,476 relates to various classes of advances, prepayments, receivables, and deposits.

Included in the balance of the accumulated expenditure on fixed property of \$32,126,205 at April 30, 1970, is an amount of \$9,435,344 which is the total expenditure to date on the new headquarters building of the Fund. The total estimated cost of the project is \$43.5 million. To expedite construction, work has started under a letter of intent contract.

In accordance with the established policy of the Fund, the entire cost of additions during the year to fixed property, to furniture and fixtures, and to automotive equipment was charged to expense. Detailed memoranda records are maintained for the several classes of these assets, and the accumulated costs at April 30, 1970, are shown in Schedule 5. The increase in the book value of these assets which was written off during the year is summarized as follows:

	Balances		
	1970 \$	1969 \$	Increase \$
Fixed property	32,126,205	25,615,600	6,510,605
Furniture and equipment	3,115,980	2,920,018	195,962
Automotive equipment	91,964	84,479	7,485

Capital

The membership of the Fund increased from 111 to 115 upon the admission during the year of Cambodia, Equatorial Guinea, Southern Yemen, and Swaziland. The capital of the Fund, which increased by \$117,800,000 during the year, amounted to \$21,348,700,000 at April 30, 1970. Details are shown in Schedule 3.

The following is an analysis of the increase in the capital of the Fund during the year:

Special reserve

The balance to the credit of the Special Reserve account at April 30, 1970, was \$366,224,001. This was an increase of \$56,741,734 over the balance at the close of the previous year and represented the year's income from investments in U. S. Government securities (Exhibit C). In accordance with a decision of the Executive Board on November 27, 1957, income from this source is credited to this account as it is earned to make provision for possible administrative deficits.

The Audit Committee noted that the Gold Investment Program is under periodic review by the Fund.

General reserve

The General Reserve represents the Fund's accumulated net income which at April 30, 1969, amounted to \$324,646,839 including provisionally the net income of \$70,837,822 for the year then ended, pending action by the Board of Governors. In accordance with Board of Governors' Resolution No. 24-14, adopted October 3, 1969, \$38,942,123 was allocated to this account, and \$31,895,699 was distributed to members.

The balance in the account at April 30, 1970, amounted to \$350,303,618 including the net income of \$57,552,478 for the year under review transferred provisionally to this account pending action by the Board of Governors.

Subscriptions in respect of increases in quotas consented to but not yet effective

The amount of \$1,800,000 in this account on April 30, 1970, represents the balance of increases in quotas consented to by three members but not yet effective because payments were to be made in installments. As each installment is paid in full, the amount becomes an effective increase in the member's subscription and is transferred to its authorized subscription account. In April 1970, partial payments amounting to \$725,000 were received from two members on installments which were not then due. The balances not due, amounting to \$1,075,000, is a contra of the subscriptions to capital receivable - balances of increases in quotas not due. Details are shown in Schedule 4.

Indebtedness

At April 30, 1970, outstanding borrowings of the Fund under Article VII, Section 2(i), of the Articles of Agreement amounted to \$1,065 million, consisting of \$815 million under the General Arrangements to Borrow, and \$250 million under a special agreement with one member.

The currencies of ten major industrial countries equivalent to \$5,888.9 million were made available under the General Arrangements to Borrow, to strengthen the Fund when supplementary resources are needed to forestall or cope with an impairment of the international monetary system. These arrangements were renewed for a period of five years to end October 23, 1975.

There was an increase in the amount available under the Arrangements during the year, amounting to \$31.8 million, due to the net effect of a devaluation of the French franc on August 10, 1969, and a revaluation of the German mark on October 26, 1969.

In connection with drawings by two members during the year, the Fund made calls on participants totaling the equivalent of \$484 million. Repayments to participants totaled \$515 million. The difference of \$31 million represents a decrease in the Fund's indebtedness, bringing the total indebtedness under the General Arrangements to Borrow to \$815 million.

The claim to repayment of one participant amounting to \$210 million was transferred to four other participants in accordance with paragraph 13 of the Arrangements.

There was no change during the year in the Fund's indebtedness of \$250 million which had been borrowed previously by special agreement with one of its members.

Schedule 6 gives details of the maximum amounts of the credit arrangements, the borrowings outstanding and the unused credit under the General Arrangements to Borrow at April 30, 1970.

Provision for potential refunds of stand-by charges

The figure of \$740,447 shown in the Balance Sheet represents the balance of charges paid by members for stand-by arrangements which were still in force on April 30, 1970. This balance is the maximum amount that could become available to these members as credits against service charges on purchases of currencies by them subsequent to April 30, 1970, under the stand-by arrangements, or as refunds resulting from adjustments or cancellations of the arrangements after that date. Charges in respect of amounts not drawn by the date of expiration of stand-by arrangements are transferred to income.

The following summarizes the transactions, including accruals, in this account during the year:

Other liabilities

The items constituting the figure of \$33,176,124 shown in the Balance Sheet under this heading are summarized in Schedule 7. They consist of \$27,181,314, representing total remuneration payable to members in accordance with Article V, Section 9, of the Articles of Agreement; \$3,982,062 representing interest payable on indebtedness; and \$2,012,748 relating mainly to personal services, travel, and other administrative costs.

IV. STATEMENT OF INCOME AND EXPENDITURE

Income and expenditure

A comparative statement of the income and expenditure of the Fund for the five years ended April 30, 1970, is given below:

Fiscal Year	Gross income in millions of U.S. dollars	Percentage of increase + over or decrease - from the preceding year	Expenditure in millions of U.S. dollars	Percentage of increase + over or decrease - from the preceding year	Net income in millions of U.S. dollars	Percentage of increase + over or decrease - from the preceding year
1966	81.32	+70.3	36.77	+65.6	44.55	+74.4
1967	89.62	+10.2	39.19	+ 6.6	50.43	+13.2
1968	89.44	- 0.2	33.70	- 14.0	55.74	+10.5
1969	122.09	+36.5	51.25	+52.1	70.84	+27.1
1970	138.13	+13.1	80.57	+57.2	57.55	- 18.8

In accordance with Executive Board Decision No. 753-(58/17), the net income of \$57.55 million for the year (excluding income from gold investments credited to the Special Reserve – Exhibit C), has been transferred provisionally to the General Reserve pending action by the Board of Governors.

Income

The schedule of Fund charges remained unchanged during the year, except that beginning July 28, 1969, no service charges were levied on gold tranche drawings in accordance with Rule I-2 of the Rules and Regulations.

The various classes of income during the year compared with those of the preceding year are summarized as follows:

	Year ended April 30		Increase + Decrease -
	1970	1969	\$
	\$	\$	\$
Operational charges			
Service charges	11,890,574	14,194,254	- 2,303,680
Charges for stand-by arrangements . . .	383,600	399,315	- 15,715
Interest on withdrawing member's currency held by the Fund	-	33,538	- 33,538
Other operational income	696,875	-	+ 696,875
	12,971,049	14,627,107	- 1,656,058
Charges on balances in excess of quotas	124,728,392	107,452,146	+17,276,246
Interest on holdings of special drawing rights	413,883	-	+ 413,883
Other income	13,611	11,267	+ 2,344
Total income	<u>138,126,935</u>	<u>122,090,520</u>	<u>+16,036,415</u>

There was a net increase in total income of \$16,036,415 over the figure of \$122,090,520 for the previous year. The decrease of \$2,303,680 in income from service charges on transactions was due to the amount of purchases within the gold tranches during the year.

There was no income from interest on withdrawing member's currency held by the Fund as the final installment due under a settlement agreement between a former member and the Fund was made in January 1969.

Included in the income are charges on sales of gold to the Fund by South Africa, amounting to \$696,875.

The income from charges on balances in excess of members' quotas increased by \$17,276,246, due partly to an increase in the amount of currency holdings subject to such charges, and partly to the aging of some of the outstanding drawings and the consequent application of higher rates of charges.

Included in income for the first time are receipts of interest equivalent to \$413,883 on holdings of special drawing rights acquired by the General Account during the four-month period ended April 30, 1970.

Administrative expenditure

The Administrative Budget for the year, as approved by the Executive Board on April 9, 1969, and adopted by the Board of Governors by Resolution No. 24-13 on October 3, 1969, made provision for administrative expenditure totaling \$27,900,000. Supplementary appropriations totaling \$1,100,000 were approved by the Executive Board on February 27, 1970. The revised budget, therefore, totaled \$29,000,000, which was \$4,050,000 higher than the revised budget of \$24,950,000 for the previous year.

The following table lists the revised provisions for the year under the major headings reflecting the various inter-category transfers authorized by the Executive Board on February 27, 1970, and May 14, 1970. The table confirms that the expenditure incurred under the several headings of the budget was in all cases within the amounts of the budget provisions. The table also compares the expenditure under those headings with the corresponding expenditure of the preceding year.

Net administrative expenditure	<u>27,744,940</u>	<u>24,384,516</u>	<u>-</u>	+3,360,424

The net administrative expenditure rose by \$3,360,424 to \$27,744,940 due to larger expenditure under all categories during the year. An amount of \$887,656 was deducted from total administrative expenditure representing the estimated expenses of operating the Special Drawing Account since August 6, 1969, the day the required level of participation in the Special Drawing Account was achieved. Reimbursement of this amount has been received from participants in the Special Drawing Account in accordance with Article XXVI, Section 4.

The expenditure of \$659,828 under the heading of Board of Governors shows an increase of \$78,305 over the figure of \$581,523 in the previous year, due mainly to higher travel costs for Governors.

The increase of \$227,232 for the Office of the Executive Directors results mainly from salary increments approved and an increase in the number of assistants appointed during the year. The increase of \$3,008,893 for the regular staff results mainly from an increase in the number of appointments to professional and general service positions and salary increments approved during the year. Related costs for compensations and benefits as a result of those increases were similarly increased.

The expenditure in connection with Special Services to Member Countries increased by \$230,527 due mainly to additional costs of the IMF Institute and the Panel of Central Bank Experts.

There was also an increase of \$703,123 in Other Administrative Expenses, due partly to the loss of rent from the International Bank for Reconstruction and Development when it relinquished office space in the Fund building, and partly to higher costs of goods and services related to the administrative operations of the Fund.

Operational expenditure

Operational expenditure for the year of \$46,310,902 shows a net increase of \$23,975,209 over the expenditure of \$22,335,693 in the previous year. This increase is due mainly to the expenditure of \$27,181,314, the amount in respect of remuneration payable to members in accordance with the provisions of Article V, Section 9, for the period from July 28, 1969, through April 30, 1970, at the rate of one and one-half per cent per annum. Payments of the remuneration were made to 32 members in gold, special drawing rights and members' currencies during May 1970.

NOTES:

1. Parity rates, except for those marked *, which are provisional rates for bookkeeping purposes. Rates marked † represent U. S. cents per currency unit; all other rates represent currency units per U. S. dollar.
2. Currency holdings represent amounts paid in respect of an increase in quota; the currency portion of the original subscription will not become due until a par value has been established.
3. Holdings also include currency subscription payment made in anticipation of an authorized increase in quota. (See Schedule 4).
4. Checking accounts are maintained with Riges National Bank of Washington, D.C., for the purpose of making local payments for administrative expenditures.

PART TWO: SPECIAL DRAWING ACCOUNT

I. GENERAL COMMENTS

Since January 1, 1970, operations and transactions involving special drawing rights have been recorded in the Special Drawing Account. The purpose of the facility based on special drawing rights is to enable the Fund to meet any general shortage of unconditional international liquidity by supplementing the existing reserve assets of its members.

Following long negotiations, an amendment of the Articles of Agreement, which included provisions for the facility based on special drawing rights in the Fund, was proposed by the Executive Directors and approved by the Board of Governors. With the acceptance of the proposed amendment by three-fifths of the members having four-fifths of the total voting power, the Articles of Agreement were amended on July 28, 1969, *inter alia*, establishing the Special Drawing Account. By August 6, 1969, members having 75 per cent of the total of quotas had deposited with the Fund instruments of participation setting forth that they undertake all the obligations of a participant in the Special Drawing Account, and that they had taken all steps necessary to enable them to carry out all of their obligations.

On the basis of the proposal by the Managing Director in which the Executive Directors had concurred, the Board of Governors on October 3, 1969, adopted Resolution No. 24-12 which provides for allocation of special drawing rights by the Fund to participants in the Special Drawing Account during a basic period of three years beginning January 1, 1970. The resolution also indicates the date, the quota basis, and the rate for each of three allocations during the basic period.

By December 31, 1969, 105 members of the Fund had deposited instruments of participation and thus became participants in the Special Drawing Account. On that date 10 members of the Fund had not deposited instruments of participation.

The first allocation of special drawing rights was made to 104 participants in the Special Drawing Account on January 1, 1970. The Republic of China, though a participant, notified the Fund that it did not wish special drawing rights to be allocated to it for the first basic period.

Five basic groups of accounts are kept for the Special Drawing Account:

Net cumulative allocations of special drawing rights to participants

Holdings of special drawing rights by participants

Holdings of special drawing rights by the General Account

Holdings of special drawing rights by other holders

Settlement account of terminating participants.

The accounts within each group have been designed to show allocations, holdings, and the source and use of special drawing rights. All operations and transactions are recorded and all data for financial statements are prepared by electronic data processing equipment.

In accordance with By-Law 20(b), the accounts in the Special Drawing Account are summarized in units of value of special drawing rights. As stipulated by Article XXI, Section 2, the unit of value of special drawing rights is equivalent to 0.888671 gram of fine gold.

Operations and transactions between participants and the General Account

The operations and transactions between participants and the General Account since January 1, 1970, were:

Receipts by General Account

Repurchases by participants	SDR 182,565,187
Settlement of charges	28,856,777
Reimbursement of assessments	887,656
Interest on holdings of special drawing rights	413,883 SDR 212,723,503

Transfers from General Account

to five participants to prevent minus balances	251,082
	<u>SDR 212,472,421</u>

As a result of the foregoing, the holdings of the General Account at April 30, 1970, amounted to SDR 212,472,421.

The repurchases by participants with special drawing rights represented 28.9% of all repurchases in the General Account by members during the four months ended April 30, 1970.

Of the total charges paid by members in the General Account since January 1, 1970, settlements were made by participants in special drawing rights in the following percentages:

Service charges	24.0%
Stand-by charges	14.0%
Charges on balances in excess of quotas	86.7%

Reimbursement to the General Account of the estimated cost of operating the Special Drawing Account was made by an assessment against participants pursuant to Article XXVI, Section 4, for the period August 6, 1969, to April 30, 1970. The assessment for each participant was fixed by the Board of Executive Directors at the rate of 0.026 per cent of its allocation of special drawing rights.

Interest was calculated on the daily balances of the holdings of special drawing rights by the General Account at the rate of 1-1/2 per cent per annum.

NOTES:

- Under Articles XXX and XXXI of the Fund Agreement which cover termination of participation in or the liquidation of the Special Drawing Account, each participant has an obligation to pay to the Fund an amount equal to its net cumulative allocation of special drawing rights and any other amounts that may be due and payable because of participation in the Special Drawing Account. The Fund also has an obligation to redeem, in accordance with these Articles, the special drawing rights held by each participant.
- Special drawing rights allocated by the Fund do not constitute claims by holders against the Fund to provide currency, except as prescribed by the provisions of Articles XXX and XXXI relating to the termination of participation and liquidation. Participants may use their special drawing rights to obtain currency in accordance with the provisions of Article XXV, and under Section 5 of this Article they are entitled to request the Fund's assistance in the form of designation of participants to provide currency in exchange for special drawing rights. The obligation of a participant to provide currency for special drawing rights does not extend beyond the point at which its holdings of special drawing rights in excess of its net cumulative allocations are equal to twice its net cumulative allocation or such higher limit as may be agreed between a participant and the Fund. A participant may, however, provide currency in excess of the obligation limit or any agreed higher limit.

Staff Retirement Fund

STAFF RETIREMENT FUND

THE AUDIT

Scope of the audit

The Audit Committee has examined the separate accounts and financial statements relating to the Staff Retirement Fund for the year ended April 30, 1970. In the course of the examination, the Committee referred to the Articles of the Staff Retirement Plan and to the decisions of the Pension, Administration and Investment Committees created under the Plan. The Audit Committee made what it considered an adequate test check of the various classes of transactions, taking into account the audit coverage of the Internal Auditor, whose report to the Committee showed that a detailed examination had been made of the participants' accounts.

Audit certificate

In our opinion, the Balance Sheet, Statement of Source and Application of Funds, and the related Schedules of Participants' Account, Accumulation Account, Retirement Reserve Account and Reserve Against Investments present fairly the financial position of the Staff Retirement Fund as at April 30, 1970, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

AUDIT COMMITTEE:

/s/ Andre Valls, Chairman (France)

/s/ Shamsir bin Omar (Malaysia)

/s/ A.S.C. Johnson (Sierra Leone)

I. THE PLAN

There were no amendments to the Plan during the year.

The Twentieth Actuarial Valuation of the Staff Retirement Plan was carried out during the year based on the participants and retirees at April 30, 1969. The Actuary certified that future contributions by the Fund at the rate of 14.27 per cent of the pensionable remuneration of participants were required for the fiscal year beginning May 1, 1969, in addition to the contribution of the participants, to provide benefits under the Plan. However, in view of factors that seem likely to raise the required rate in future years, the Pension Committee agreed to maintain the present rate of contribution of the Fund at 15-1/3 per cent.

The number of participants increased by 78 during the year, and at April 30, 1970, there were 1,135 of which 1,088 were active members and 47 were inactive participants, i.e., those who have left the Fund and have not withdrawn their contributions.

The changes in the number of participants in the Plan during the year were as follows:

Membership at April 30, 1969	1,057
Add	
New members	173
Transfers from IBRD	<u>2</u>
	<u>175</u>
	1,232
Deduct	
Withdrawals	77
Deaths	3
Retirements	14
Transfers to IBRD	<u>3</u>
	<u>97</u>
Membership at April 30, 1970	1,135
	<u><u>1,135</u></u>

The number of pensioners increased by 15 during the year making a total of 102 pensioners at the year end. The number of persons who retired under the Plan but were not yet drawing pensions was 47 at April 30, 1970. In addition, 14 children were receiving benefits under the Plan at that date.

II. BALANCE SHEET

Investments

The portfolio consists of bonds of the U. S. Government (including *de facto* guaranteed), of IBRD and IADB bonds, and of corporate bonds and stocks, which with one exception are United States corporations. The book value of the portfolio increased from \$28,366,586 to \$31,789,927. The difference of \$3,423,341 is due to an increase of \$803,001 in bonds and an increase of \$2,620,340 in stocks. The market value of the portfolio amounted to \$27,637,249 at April 30, 1970, compared to \$29,556,068 at April 30, 1969.

The Audit Committee received directly from the custodian confirmations of investments held at the year end.

Holdings of the various classes of investments at April 30, 1970, stated in original investment values, were within the limiting percentages prescribed by the Pension Committee, as follows:

	<u>Percentage Authorized</u>	<u>Percentage Held</u>
Bonds		
U.S. Government (including <i>de facto</i> guaranteed)	Minimum 20	22.61
International Bank for Reconstruction and Development and Inter-American Development Bank	Maximum 20	14.82

Participants' Account, Accumulation Account, Retirement Reserve Account and Reserve Against Investments

The amounts in the Participants' Account, Accumulation Account, Retirement Reserve Account and Reserve Against Investments show an increase of \$3,482,105 at April 30, 1970, over the total balances in these accounts at the end of the previous year as follows:

	Year ended April 30		Increase + Decrease -
	1970	1969	
	\$	\$	
Participants' Account (Schedule I to Exhibit I)	6,574,515	5,713,271	+ 861,244

The above increase (\$3,482,105) represents the increases in investments (\$3,423,341) and working capital (\$58,764).

III. OPERATING RESULTS

The operating results of the Staff Retirement Fund are summarized as follows:

Income		
Participants' contributions	\$1,015,085	
Employer's contributions	1,999,221	
Refunds by participants restored to service	5,751	
Transfers from Retirement Plan of the International Bank for Reconstruction and Development	22,518	
Investment income	1,521,139	
	<hr/>	
		\$4,563,714
Less		
Net loss on sales and redemptions of investments	<u>474,967</u>	\$4,088,747
Disbursements		
Pension payments, withdrawals, death benefits and transfers	606,642	
Excess of income over disbursements for the year	<u><u>\$3,482,105</u></u>	

The decrease of \$75,019 in the amount of excess of income over disbursements for the current year compared to that of the previous year (\$3,557,124) was mainly due to the net loss on sales and redemptions of investments of \$474,967 which was written off to the Reserve Against Investments account. There was no such loss in the preceding year.

The excess of income over disbursements for the year under review was mainly used to purchase additional investments.

All administrative expenses of the Plan for the year were borne by the Fund in accordance with the provisions of Article 6, Section 6.2(d), of the Staff Retirement Plan.

PROJET DE RESOLUTION

Rapports financiers, Rapport des Commissaires
aux comptes et Budget administratif

IL EST DECIDE :

Que le Conseil des Gouverneurs du Fonds estime que le Rapport des Commissaires aux comptes pour l'exercice financier clos au 30 avril 1970, les rapports financiers qui y figurent et le budget administratif pour l'exercice qui prendra fin le 30 avril 1971, répondent aux prescriptions de l'article XII, section 7 des Statuts, et de la section 20 de la Réglementation générale.

INTERNATIONAL MONETARY FUND

Document No 6

Le 21 septembre 1970

RENSEIGNEMENTS SUR LE BUDGET ADMINISTRATIF DU FONDS POUR L'EXERCICE PRENANT FIN LE 30 AVRIL 1971

1. Le budget approuvé par les Administrateurs pour l'exercice prenant fin le 30 avril 1971 figure à l'appendice IV du Rapport annuel du Fonds, et l'évolution de l'organisation et de ses activités est examinée dans la note A du supplément. Le présent document complète les données présentées dans ce Rapport.

COMPARAISONS BUDGETAIRES

2. Au cours des dernières années, le budget administratif et les dépenses effectives du Fonds se sont présentés comme suit :

<u>Exercice</u>	<u>Budget approuvé</u>	<u>Dépenses effectives</u>
1966	\$15.460.000	\$15.035.587
1967	\$18.840.000	\$18.082.335
1968	\$22.100.000	\$21.299.439
1969	\$24.950.000	\$24.384.516
1970	\$29.000.000	\$28.632.596
1971	\$33.700.000	

3. Les totaux des 13 principales catégories de dépenses figurent à l'appendice IV du Rapport annuel. Les chiffres inscrits au budget apparaissent d'une manière plus détaillée à l'Annexe I du présent document ainsi que les chiffres correspondants pour 1969-1970. Le plafond du budget relatif à l'exercice 1970, qui avait été fixé initialement à 27.900.000 dollars a ensuite été porté à 29.000.000 de dollars. Ce relèvement reflète principalement la décision prise en cours d'exercice par le Conseil d'Administration de procéder à un relèvement général des traitements. Dans les dépenses effectives - soit 28.632.596 dollars - figure une somme de 887.656 dollars provenant d'un prélèvement effectué sur les allocations cumulatives nettes des participants au Compte de Tirage Spécial, qui représente le remboursement des frais de gestion de ce compte depuis le 6 août 1969, de sorte que les dépenses administratives nettes ressortent à 27.744.940 dollars.

PERSONNEL

4. On trouvera à l'Annexe II l'organigramme du Fonds. Aucune modification d'ordre structurel n'a été apportée depuis l'an dernier.

5. Le nombre total maximum de postes approuvé pour le nouvel exercice s'élève à 1.133, ce qui représente une augmentation de 95 postes par rapport au plafond de l'exercice précédent. Sur ces 1.133 postes, 51 ont trait à des activités communes au Fonds et à la Banque. Au 31 juillet 1970, 1.034 membres du personnel régulièrement employés étaient en fonction et un certain nombre de membres du personnel étaient en outre engagés temporairement. Pour les six derniers exercices, les plafonds des effectifs du personnel ont été les suivants:

<u>Exercice</u>	<u>Plafond</u>
1966	715
1967	817
1968	901
1969	976
1970	1.038
1971	1.133

6. Les chiffres ci-dessus ne comprennent pas les Assistants des Administrateurs. Les 20 Administrateurs ont droit chacun à quatre Assistants. Au 31 juillet 1970, 63 Assistants d'Administrateurs étaient en fonction.

7. On trouvera à l'Annexe III un tableau comparant les classifications et le nombre de postes prévus au budget pour les divers départements et services du Fonds avec ceux de l'exercice précédent. Les augmentations de personnel ont été effectuées sur une base sélective afin de fournir une assistance supplémentaire aux bureaux où le volume de travail a continué de s'accroître.

INDEMNITES ET PRESTATIONS

8. Au mois de mai du présent exercice, le Conseil d'Administration a approuvé une proposition de la Direction visant à augmenter les traitements du personnel à dater du 1er mai. La recommandation de la Direction se fondait sur une étude indiquant que le coût de la vie à Washington avait augmenté sensiblement et que les salaires offerts par le Fonds étaient devenus moins compétitifs par rapport à ceux des autres employeurs. Il a été estimé que le coût de cette augmentation atteindra approximativement 1.000.000 de dollars pour l'exercice.

REPARTITION GEOGRAPHIQUE DES POSTES

9. Le Fonds a poursuivi ses efforts afin de s'assurer les services des candidats les mieux qualifiés et représentant le plus grand nombre de pays possible. Au 30 avril 1970, le Fonds comptait parmi ses effectifs des ressortissants de 81 pays (voir Annexe IV).

DEPLACEMENTS OFFICIELS

10. Au cours de l'exercice écoulé, 116 pays ont reçu la visite d'Administrateurs et de membres des services du Fonds à l'occasion de missions ainsi qu'au titre de l'assistance technique. Pour l'exercice précédent, le nombre de pays visités atteignait 101.

COOPERATION TECHNIQUE

11. Ainsi qu'il est indiqué dans la Note A du Supplément au Rapport annuel, le Fonds a continué au cours de l'exercice écoulé de détacher des fonctionnaires auprès des pays membres dans le cadre de son programme de coopération technique. Au 31 juillet 1970, des fonctionnaires en détachement de longue durée servaient dans 16 pays membres. Les services du Fonds ont également effectué un certain nombre de missions de courte durée, dont plusieurs ont été entreprises dans le cadre d'un programme destiné à aider les banques centrales à améliorer leurs bulletins de statistiques.

12. Par l'intermédiaire de son Service des banques centrales, le Fonds met à la disposition des pays membres qui en font la demande des experts destinés à occuper dans les banques centrales de ces pays des postes supérieurs de direction et de gestion. Au 31 juillet 1970, 48 experts servaient dans les pays suivants : Afghanistan, Burundi, Ethiopie, Gambie, Guinée, Guinée équatoriale, Guyane, Indonésie, Kenya, Laos, Libéria, Malaisie, Malawi, Malte, Maurice, Ouganda, Panama, République arabe du Yémen, République démocratique du Congo, Rwanda, Sierra Leone, Singapour, Somalie, Soudan, Tanzanie, Trinidad et Tobago et Zambie. Un certain nombre de nouvelles demandes d'experts sont en cours d'examen.

13. Dans le cadre du programme d'assistance technique du Fonds consacré au domaine des finances publiques, 12 experts servent actuellement au Burundi, en Ethiopie, en Indonésie, au Libéria, en Malaisie, au Sierra Leone, en Somalie, en Tanzanie et à Trinidad et Tobago.

14. De nouveaux progrès ont été réalisés en vue de distribuer à environ 200 établissements financiers et éducatifs situés dans 24 pays d'Amérique latine quelque 275 livres et articles en espagnol consacrés à des sujets monétaires et financiers. Le Fonds collabore avec le Centre d'études monétaires latino-américaines et avec la Banque Interaméricaine de Développement à la réalisation de ce projet. Les deux expéditions effectuées jusqu'à présent portaient sur 106 titres.

INSTITUT DU FMI

15. Pendant l'exercice 1970, l'Institut du FMI a organisé sept cours auxquels ont participé 174 stagiaires désignés par les Gouvernements et les banques centrales de pays membres. Trois de ces cours ont traité de la méthodologie de la balance des paiements (deux en anglais et un en français) et quatre ont porté sur l'analyse et la politique financières, dont deux en anglais, un en français et un en espagnol. Les cours de méthodologie de la balance des paiements ont duré huit semaines et ceux consacrés à l'analyse et à la politique financières, 20 semaines chacun. Deux de ces cours avaient commencé pendant l'exercice précédent et deux autres se sont poursuivis pendant l'exercice actuel. Depuis la création de ces cours de perfectionnement par le Fonds en 1950 jusqu'à la fin de l'exercice 1970, un total de 958 stagiaires venant de 108 pays ont suivis ces cours. En plus de ceux qui avaient débuté pendant l'exercice précédent, l'Institut a organisé cinq cours pour l'exercice actuel : trois ont porté sur l'analyse et la politique financières (en anglais, en français et en espagnol), un sur la méthodologie de la balance des paiements (en anglais) et un sur les finances publiques (en anglais).

ASSEMBLEE ANNUELLE DES CONSEILS DES GOUVERNEURS

16. Le coût, pour le Fonds, de l'Assemblée 1970 à Copenhague a été estimé à 850.000 dollars. On trouvera ci-dessous le coût effectif pour le Fonds des Assemblées annuelles qui se sont tenues depuis 1964 et le coût estimatif de la présente Assemblée.

Le 24 juillet 1970

Monsieur le Président,

J'ai l'honneur de vous informer que, pour l'exercice clos le 30 avril 1970, le Fonds a réalisé un revenu net de 57.552.478,01 dollars. En vertu de l'article XII, section 6, paragraphe a) des Statuts du Fonds, les Gouverneurs doivent déterminer chaque année la part de ce revenu qui sera affectée aux réserves et la part qui, le cas échéant, sera distribuée.

Lors de la 24ème Assemblée annuelle, le Conseil des Gouverneurs a autorisé l'affectation à la Réserve générale d'un montant s'élevant à 38.942.122,76 dollars et la distribution aux membres d'un montant égal à 31.895.699,27 dollars, conformément aux dispositions de l'article XII, section 6, paragraphe b).

Conformément à la décision prise par le Conseil d'Administration le 14 avril 1958, le revenu net réalisé par le Fonds après le 30 avril 1969 a été transféré provisoirement, à la fin de chaque mois, à la Réserve générale. Le montant total ainsi transféré pendant l'exercice clos le 30 avril 1970 s'élève à 57.552.478,01 dollars.

Les Administrateurs proposent que, sur ce revenu net, 17.532.118,96 dollars soient distribués aux membres, à raison de 2 pour cent de la position crééditrice nette de chaque membre au Fonds pendant l'exercice clos le 30 avril 1970, en tenant compte du montant que chaque membre a reçu sous forme de rémunération pendant cet exercice. La position crééditrice nette d'un membre est représentée par la différence entre la moyenne des avoirs du Fonds en la monnaie de ce pays membre et les 75 pour cent de la quote-part de ce membre, aucun compte n'étant tenu des avoirs dépassant 75 pour cent de la quote-part. Les Administrateurs proposent également que le reste, soit 40.020.359,05 dollars, soit affecté à la Réserve générale. En ce qui concerne la distribution de revenu aux pays membres, je désirerais attirer l'attention sur le fait que dans les dépenses du Fonds pour l'exercice clos le 30 avril 1970 figure, pour la première fois, le paiement d'une rémunération prévue par l'article V, section 9. Cette rémunération a été payée à partir du 28 juillet jusqu'à la fin de l'exercice au taux de 1,5 pour cent sur la position crééditrice nette des membres, et le montant total versé s'est élevé à 27.181.314 dollars.

Les Administrateurs recommandent l'adoption par le Conseil des Gouverneurs du projet de résolution ci-joint, lequel autorise l'affectation à la Réserve générale de 40.020.359,05 dollars et la distribution aux membres de 17.532.118,96 dollars, conformément aux dispositions de l'article XIII, section 6, paragraphes a) et b).

Veuillez agréer, Monsieur le Président, l'expression de ma haute considération.

PROJET DE RESOLUTION

Réserve générale et répartition du revenu net

LE CONSEIL DES GOUVERNEURS, ayant pris note de la recommandation des Administrateurs et des considérations y afférentes exposées dans la lettre d'envoi du Directeur général et Président du Conseil d'Administration au Président du Conseil des Gouverneurs en date du 24 juillet 1970,

DECIDE QUE sur le revenu net de 57.552.478,01 dollars réalisé pour l'exercice clos le 30 avril 1970 :

1. un montant s'élevant à 40.020.359,05 dollars sera affecté à la Réserve générale, et

2. un montant s'élevant à 17.532.118,96 dollars sera réparti entre les membres, conformément aux dispositions de l'article XII, section 6 b), de telle sorte que le total de la rémunération et du revenu net versé à chaque membre soit équivalent à 2 pour cent du montant représentant la différence entre la moyenne des avoirs du Fonds en la monnaie de chaque pays membre le 30 avril 1970 et les 75 pour cent de la quote-part de ce membre.

Document No 8

Le 12 août 1970

Monsieur le Président,

Les Administrateurs ont consacré une section de leur Rapport annuel 1969 au "Mécanisme de l'ajustement des taux de change" et ont fait connaître leur intention de continuer à étudier cette question sur laquelle plusieurs Gouverneurs ont exprimé leur opinion lors de leur Assemblée annuelle de 1969. Pendant l'année en cours, les Administrateurs ont poursuivi leurs travaux, et j'ai maintenant l'honneur de vous transmettre ci-joint un rapport intitulé "Le rôle des taux de change dans l'ajustement des paiements internationaux" * fondé sur les recherches qu'ils ont effectuées jusqu'à présent et dont tous les Gouverneurs vont recevoir un exemplaire. Ce rapport a trait au point 5 ("Mécanisme de l'ajustement des taux de change") de l'ordre du jour du Conseil des Gouverneurs pour son assemblée de Copenhague.

Ce rapport se compose de deux parties. Les opinions des Administrateurs concernant les aspects politiques de cette question sont exposées dans la Deuxième partie du rapport intitulée "Implications relatives aux questions de politique"; la Première partie contient une étude descriptive et analytique sur laquelle se fondent ces opinions.

Il convient de noter que les Administrateurs se proposent de continuer à étudier cette question au cours des prochains mois.

Je vous prie de bien vouloir agréer, Monsieur le Président, l'assurance de ma haute considération.

Document No 9

Le 21 septembre 1970

Monsieur le Président,

Les modifications ci-jointes aux Règles et Règlements sont soumises à l'examen du Conseil des Gouverneurs en application de la section 16 de la Réglementation générale.

Les dispositions de la Règle I-6 c), d) et f) ont été modifiées le 20 mai 1970 à la suite de l'entrée en vigueur de l'amendement des Statuts le 28 juillet 1969. L'article V, section 7 c) iv) et le paragraphe 1 e) de l'Annexe B des Statuts modifiés stipule que lorsqu'un membre a encouru des obligations de rachat excédant 25 pour cent de sa quote-part, il devra reporter le paiement de l'excédent à la fin de l'exercice ou des exercices suivants. Afin de faire accorder les dispositions de la Règle I-6 avec l'article V, section 7 c) iv), les mots "le montant dont le paiement devra être différé" ont été ajoutés à la fin de l'ancien texte de la Règle I-6 c) et, dans la dernière phrase des paragraphes d) et f) de la Règle I-6, les mots "l'obligation de rachat" ont été remplacés par "le paiement du montant dû".

Le texte modifié de cette Règle figure à l'Annexe I. Le projet d'une résolution soumise à l'agrément du Conseil des Gouverneurs constitue l'Annexe II.

Les Administrateurs n'ont pas apporté d'autres modifications aux Règles et Règlements depuis la dernière Assemblée annuelle.

Veuillez agréer, Monsieur le Président, l'expression de ma haute considération.

MODIFICATIONS APORTEES AUX REGLES ET REGLEMENTS
DEPUIS L'ASSEMBLEE ANNUELLE 1969

Règle I-6. Texte tel qu'il a été modifié le 20 mai 1970.

- c) Lorsqu'une obligation de rachat a été ainsi calculée pour un membre, le Directeur général, après consultation avec l'Administrateur nommé ou élu par le membre, notifiera celui-ci par lettre contenant tous les détails nécessaires relatifs à ce calcul, y compris la répartition du montant payable entre les types de réserves et, le cas échéant, le montant dont le paiement devra être différé.
- d) Si le membre se déclare d'accord avec ledit calcul, il en avisera le Fonds dans les trente jours qui suivent la date de réception de la notification de ce calcul. Le Directeur général enverra alors au membre une demande officielle de paiement et en notifiera en même temps le Conseil. Le membre s'acquittera du paiement du montant dû dans les trente jours qui suivent la date de réception de la demande officielle de paiement.
- f) Une fois qu'un accord est intervenu avec le membre aux termes de l'alinéa e) ci-dessus, ou qu'une décision est prise par le Conseil d'Administration déterminant l'obligation de rachat du membre, le Directeur général enverra à celui-ci une demande officielle de paiement et en notifiera en même temps le Conseil. Le membre s'acquittera du paiement du montant dû dans les trente jours qui suivent la date de réception de cette demande officielle de paiement, ou suivant tout autre délai que peut décider le Conseil d'Administration.

PROJET DE RESOLUTION

Modifications des Règles et Règlements

IL EST DECIDE :

Que le Conseil des Gouverneurs du Fonds notifie aux Administrateurs qu'il a examiné les modifications des Règles et Règlements adoptées par les Administrateurs depuis l'Assemblée annuelle de 1969 et qu'il n'a aucune correction à proposer.

REGLEMENT CONCERNANT L'ELECTION ORDINAIRE DES ADMINISTRATEURS DU FONDS EN 1970

1. Définitions: Suivant l'usage qui en est fait dans ce Règlement, et sous réserve d'adaptation au contexte:
 - a) Par le terme "Statuts", on entend les Statuts du Fonds.
 - b) Par le terme "Conseil", on entend le Conseil des Gouverneurs du Fonds.
 - c) Par le terme "Président", on entend le Président du Conseil des Gouverneurs ou le Vice-Président assumant les fonctions de Président.
 - d) Le terme "Gouverneur" comprend le Gouverneur suppléant ou tout Gouverneur suppléant temporaire assumant les fonctions de Gouverneur.
 - e) Par le terme "Secrétaire", on entend le Secrétaire ou tout Secrétaire intérimaire du Fonds.
 - f) Par "Election", on entend l'élection ordinaire d'Administrateurs en 1970.
2. Date de l'élection: L'élection se tiendra pendant l'Assemblée annuelle 1970, à la date qui sera fixée par le Conseil.
3. Règlement de base - Annexe C: Sous réserve des modifications énoncées plus loin, les dispositions de l'Annexe C des Statuts s'appliqueront à la tenue de l'élection.
4. Administrateurs à élire en vertu de l'article XII, section 3 b)(iii):
 - a) Onze Administrateurs seront élus conformément à l'article XII, section 3 b) (iii).
 - b) Etant donné le nombre d'Administrateurs à élire en vertu de l'article XII, section 3 b) (iii):
 - i) On remplacera "19 pour cent" par 6 pour cent aux paragraphes 2 et 5 de l'Annexe C.
 - ii) On remplacera "20 pour cent" par 13 pour cent aux paragraphes 3 et 5 de l'Annexe C.
 - iii) On remplacera "cinq Administrateurs" par "onze Administrateurs" et "cinq personnes" par "onze personnes" au paragraphe 2 de l'annexe C.

5. Administrateurs à élire conformément à l'article XII, section 3 b)(iv): Trois Administrateurs seront élus conformément à l'article XII, section 3 b)(iv) et
 - a) Le pourcentage minimum de voix exigé pour l'élection au titre de cet alinéa sera de 28 pour cent.
 - b) Le pourcentage maximum de voix pour tout candidat, aux fins du paragraphe 13 ci-dessous, sera de 38 pour cent.
6. Désignation des candidats:
 - a) Tout candidat désigné par un ou plusieurs Gouverneurs habilités à prendre part à l'élection sera éligible au poste d'Administrateur.
 - b) Chaque désignation devra figurer sur une Formule de désignation fournie par le Secrétaire, signée par le ou les Gouverneurs effectuant la désignation et remise au Secrétaire.
 - c) Un Gouverneur ne peut désigner qu'un candidat.
 - d) Les désignations pourront être remises jusqu'à midi la veille du jour prévu pour l'élection. Le Secrétaire affichera et distribuera la liste des candidats désignés.
7. Surveillance de l'élection: Le Président nommera les scrutateurs et autres adjoints et prendra les mesures qu'il estimera nécessaires à la tenue de l'élection.
8. Scrutins: Un bulletin de vote sera remis, avant chaque scrutin, à chaque Gouverneur habilité à voter. Pour chaque scrutin, seuls les bulletins distribués pour ce scrutin seront comptés.
9. Ordre des scrutins: Au premier scrutin, tous les Gouverneurs habilités à participer à l'élection d'Administrateurs au titre de l'article XII, section 3 b)(iii) et ceux pour toutes les Républiques américaines habilitées à participer à l'élection d'Administrateurs au titre de l'article XII, section 3 b)(iv) voteront simultanément. Le scrutin pour les Administrateurs élus au titre de l'article XII, section 3 b)(iii) devra ensuite être conclu avant que n'aient lieu d'autres scrutins pour les Administrateurs élus par les Républiques américaines.
10. Scrutin - Règles générales: Chaque scrutin se déroulera comme suit:
 - a) Il sera procédé à l'appel des pays membres dont les Gouverneurs sont habilités à voter, et chaque bulletin, signé par le Gouverneur, sera déposé dans l'urne.

- b) Lorsqu'un scrutin sera terminé, le Président fera compter les voix et annoncera les noms des candidats élus avant la fin de la séance au cours de laquelle l'élection aura eu lieu. Si un autre scrutin est nécessaire, le Président annoncera les noms des candidats sur lesquels portera ce scrutin et les pays membres dont les Gouverneurs sont habilités à voter.
- c) Si les scrutateurs estiment qu'un bulletin de vote n'a pas été convenablement rempli, ils fourniront si possible au Gouverneur l'occasion de le corriger avant de compter les résultats; et le bulletin ainsi corrigé sera considéré comme valide.
11. Scrutin et élection des Administrateurs au titre de l'article XII, section 3 b)(iii):
- a) Lorsque, dans un scrutin, le nombre de candidats désignés ne dépasse pas le nombre d'Administrateurs à élire, chacun de ces candidats sera considéré comme élu par le nombre de voix qu'il aura obtenues à ce scrutin, sous réserve, toutefois, que si, audit scrutin, on estime que les voix d'un Gouverneur - aux termes de l'Annexe C, paragraphe 4 - ont porté le nombre de voix en faveur d'un candidat à plus de 13 pour cent de l'ensemble des voix, nul ne sera considéré comme élu s'il n'a obtenu audit scrutin un minimum de 6 pour cent de l'ensemble des voix; on procèdera alors à un deuxième tour de scrutin auquel tout candidat non élu sera habilité à se présenter.
- b) Si, après le premier tour de scrutin, le nombre d'Administrateurs à élire, conformément au paragraphe 4 ci-dessus, n'a pas été atteint, un second et, si nécessaire, d'autres tours de scrutin pourront avoir lieu. Les Gouverneurs habilités à voter à ces tours de scrutin successifs seront uniquement i) les Gouverneurs qui ont voté au scrutin précédent pour un candidat non élu, et ii) les Gouverneurs dont les voix pour un candidat élu au tour de scrutin précédent sont considérées, aux termes de l'Annexe C, paragraphe 4, comme ayant porté le nombre de voix en faveur de ce candidat à plus de 13 pour cent de l'ensemble des voix.
- c) Les voix d'un Gouverneur ne seront pas considérées, aux termes de l'Annexe C, paragraphe 4, comme ayant porté le total des voix en faveur d'un candidat à plus de 13 pour cent de l'ensemble des voix si, sans les voix dudit Gouverneur, ce total dépassait 6 pour cent, mais non 13 pour cent de l'ensemble des voix.
- d) Si, lors d'un scrutin, deux ou plusieurs Gouverneurs disposant d'un nombre égal de voix ont voté pour le même candidat, et si les voix d'un ou plus de ces Gouverneurs, mais pas tous, peuvent être considérées comme ayant porté le total des voix exprimées en faveur de ce candidat à plus de 13 pour cent de l'ensemble des voix aux termes de l'annexe C, paragraphe 4, le Président décidera alors par tirage au sort quels seront le ou les Gouverneurs, suivant le cas, qui seront habilités à voter au scrutin suivant.

- e) Si un Gouverneur s'abstient de participer à un scrutin ayant lieu aux termes de l'article XII, section 3 b)(iii) il n'aura plus droit de participer à un autre scrutin et il ne sera pas tenu compte de ses voix au sens de l'article XII, section 3 (i), pour l'élection des Administrateurs. Si, lors d'un scrutin, un pays membre n'est pas représenté par un Gouverneur dûment nommé, ce pays sera considéré comme s'étant abstenu de participer à ce scrutin.
12. Voix exprimées en faveur d'un candidat désigné non élu au titre de l'article XII section 3 b)(iii):
Tout membre, dont le Gouverneur a voté au cours du dernier scrutin pour un candidat désigné non élu au titre de l'article XII, section b(iii), peut, avant la date effective de l'élection, désigner un Administrateur qui a été élu conformément à ces dispositions et il sera considéré après la date effective de l'élection comme ayant obtenu le nombre de voix dont disposait le membre pour cette élection.
13. Election d'Administrateurs au titre de l'article XII, section 3 b)(iv):
Ce Règlement complète les dispositions de l'Annexe C, paragraphe 7.
- Chaque Gouverneur habilité à participer à l'élection devra donner toutes les voix dont il dispose à un seul candidat.
 - Les trois candidats recueillant le plus grand nombre de voix seront élus - sous réserve qu'aucun candidat ne sera élu s'il n'a obtenu au moins 28 pour cent de l'ensemble des voix. Le candidat élu par le plus petit nombre de voix exprimées pour les trois candidats élus sera considéré comme ayant été élu par toutes les voix exprimées en sa faveur, par toutes les voix des abstentionnistes, et par toutes les voix exprimées en faveur du candidat ou des candidats non élus.
 - Si, lors d'un scrutin, il reste encore deux ou plusieurs Administrateurs à élire, et s'il y a un nombre égal de candidats, chaque candidat sera élu par le nombre de voix exprimées en sa faveur sous réserve que, si les voix d'un Gouverneur sont considérées comme ayant porté le nombre de voix exprimées en faveur d'un candidat à plus de 38 pour cent de l'ensemble des voix, aucun des candidats ne sera élu à ce scrutin à moins d'avoir obtenu 28 pour cent de l'ensemble des voix, et il faudra alors procéder à un autre scrutin pour lequel tout candidat non élu au cours du scrutin précédent sera éligible.
14. Scrutins successifs pour l'élection d'Administrateurs au titre de l'article XII, section 3 b)(iv):
a) Si, après le premier scrutin, le nombre d'Administrateurs à élire conformément au paragraphe 5 ci-dessus n'a pas été atteint, on procédera à un second scrutin, et, si nécessaire, à plusieurs scrutins successifs. Les Gouverneurs habilités à voter au cours

de ces scrutins successifs seront seulement i) ceux qui ont voté au cours du scrutin précédent pour un candidat non élu, ou qui se sont abstenus de voter au cours du scrutin précédent, et ii) ceux dont les voix en faveur d'un candidat élu au cours du scrutin précédent sont considérées comme ayant porté le nombre de voix exprimées en faveur de ce candidat à plus de 38 pour cent de l'ensemble des voix. Pour déterminer si les voix exprimées par un Gouverneur doivent être considérées comme ayant porté le total obtenu par un candidat à plus de 38 pour cent de l'ensemble des voix, il conviendra de considérer ces 38 pour cent comme compréhensif d'abord des voix du Gouverneur qui a exprimé le plus grand nombre de voix en faveur de ce candidat, puis celles du Gouverneur qui en a exprimé le nombre immédiatement inférieur, et ainsi de suite jusqu'à ce qu'on ait atteint les 38 pour cent.

- b) Les voix d'un Gouverneur exprimées conformément à l'alinéa a) ci-dessus ne seront pas considérées comme ayant porté le total des voix exprimées en faveur d'un candidat à plus de 38 pour cent de l'ensemble des voix si, sans les voix de ce Gouverneur, le total est supérieur à 28 pour cent, mais ne dépasse pas 38 pour cent de l'ensemble des voix.
 - c) Si lors d'un scrutin deux ou plusieurs Gouverneurs disposant d'un nombre égal de voix ont voté pour le même candidat, et si les voix d'un ou plusieurs de ces Gouverneurs, mais non de tous, peuvent être considérées, aux termes de l'alinéa a) ci-dessus, comme ayant porté le total des voix en faveur de ce candidat, à plus de 38 pour cent de l'ensemble des voix, le Président décidera par tirage au sort quels seront le ou les Gouverneurs, suivant le cas, qui seront habilités à voter au scrutin suivant.
15. Elimination de candidats: Si, lors d'un scrutin, deux ou plusieurs candidats ont recueilli le plus petit nombre de voix, aucun candidat ne sera éliminé du scrutin suivant, mais si la même situation se reproduit au scrutin suivant, le Président éliminera par tirage au sort l'un des candidats du scrutin suivant.
16. Proclamation des résultats: Après le dernier scrutin, le Président fera distribuer une déclaration proclamant les résultats de l'élection.
17. Date d'entrée en vigueur des résultats de l'élection des Administrateurs: La date d'entrée en vigueur des résultats de l'élection est fixée au 1er novembre 1970. Les Administrateurs en poste exerceront leurs fonctions jusqu'à la veille du 1er novembre inclusivement.

18. Questions d'ordre général: Toute question concernant la tenue de l'élection sera résolue par les scrutateurs, sous réserve d'appel, à la requête de tout Gouverneur, au Président, et de ce dernier au Conseil. Chaque fois que cela sera possible, ces questions seront posées sans identifier les pays membres ou les Gouverneurs intéressés.
