

Summary of my book

Adventures of Nyakatsi "tale"

Nyakatsi who was hated by his neighbour SAGATWA , used to be denounced by this one to the king .

To each accusation , an extraordinary thing in the country occurred to Nyakatsi , thanks to his special mirthful dealing . Such as a magic cow , house in iron sheets , the car and the victory .

When Nyakatsi became a king , his neighbour SAGATWA , the former king's family , all were afraid and thought that Nyakatsi was going to revenge .

Fortunately , he let them go back with their gifts of herd of cattle that they were bringing for him and forgave them .

As a moral lesson , this tale preaches the tolerance , as Nyakatsi forgot sharp rough deeds that were rendered to him and forgave responsables .

Tugirimana John .
